

Maintenance Procedure MP-12
Plant-wide Pump Lubrication Standards

****Effective Date:** 2024-01-15**

To optimize maintenance schedules and reduce downtime across the facility, all standard centrifugal and heavy-duty pumps (including the X-200 series) will follow a synchronized schedule.

- ****Lubrication interval:** 90 days.**
- ****Responsibility:** Mechanical Team B.**

***Note:** This supersedes previous individual OEM manual schedules to align with the new quarterly shutdown windows.*
